Prima Double Bar

Prima Double Bar fencing is principally used as a ball court fence often called a MUGA, (Multi Use Games Area) but is also installed as a security fence particularly where a high fence (up to 6m) may be required. The mesh pattern has a single vertical wire (6mm or 5mm) and a twin horizontal wire (6mm or 8mm) to give a 200 x 50/55mm mesh pattern. The bottom panel can have additional twin horizontal wires to act as a rebound panel for basketball and football courts.

Panel heights: From 630mm to 2.43m high to make up the required height.

Posts: RHS 60X40mm – 120X60mm depending on fence height set at 2.5m centres with a full length clamp bar and threaded inserts.

Fixings M8 anti tamper galvanised security bolts.

Finish: Post and clamp bar, hot dip galvanised to BS EN 1461 and/or polyester powder coated.

Panels: galvfan or galvanised and polyester powder coated to any RAL or BS colour.
