### Prima Vertical Bar Railing

Prima vertical bar railings are generally made to measure and come in a variety of sizes. The traditional appearance makes this style of fence popular in many locations from schools and parks to government building, offices and industrial areas. Railings can be flat top, mitered, bow topped or surmounted with finials with a selection shown on our website.

Heights: From 600mm to 2.7m high

Panels: Solid steel bars or hollow section, manufactured from either round or square bar.

Rails: Solid such as 50x10mm or RHS such as 60x40mm or hollow section channel

Posts: CHS, RHS or RSJs, post centers depending on fence height post generally 2.5 or 2.75m centres.

Fixings M12 sher nuts with loose cleats

Finish: Primed and painted, galvanised or galvanised and polyester powder coated to any RAL or BS colour.
